

Construction Partner Services

Whether it is water damage, fire & smoke damage, or asbestos abatement the RMC team partners with commercial construction companies to get the job done. RMC understands the bottom-line urgency of avoiding delays and keeping your construction projects in motion.

Some of the services we provide for our Construction Partners include:

Water mitigation services
Fire and smoke clean up
Construction Repairs
Environmental services including:
Asbestos Abatement
Lead Abatement
Mold remediation

RMC's construction services include our 24/7/365 emergency response and scheduled restoration and abatement work. As a licensed General Contractor RMC can perform the repairs resulting from the damage as a portion of our services, or we can focus on the restoration and abatement work only. RMC is an approved vendor for many major insurance companies and knows the documentation that is required for insurance company reviews and approval.

RMC is here to help your construction company maintain uninterrupted service from demolition, through restoration and reconstruction, including the identification and removal of hazardous materials.

Starting your project? Hit a roadblock?
RMC is here to help you avoid delays and keep your project moving forward.
